

RS232 Duplex CAT5 Extender up to 2000M

The Comprehensive CRE-101LR RS-232 Extender is a low cost, hardware-based solution providing remote access and control of any RS-232 protocol device. With regular RS-232 devices you are limited to an immediate area of control. The CAT5 RS-232 Extender extends control to over 2000M. This provides you with a tremendous amount of flexibility in your topology. Now you can place RS-232 devices in any location you want and control them remotely. The RS-232 Extender also provides full duplex transmission and is compatible with all RS-232 protocols. Unit is covered by our 2 year warranty.

Features

- Extends any RS232 compliant device up to 2000 meters at 115,200bps.
- Uses one CAT5E cable
- Easy plug and play installation
- Full-duplex data communication
- Speed up to 115,200 bps.
- Complete transmission of all pin RS-232C signals
- Transmission Signal: DCD,RX,TX,DTR,DSR,RTS,CTS,RI
- External power supply included
- 2 Year warranty

Specifications

Data Baud Rate: 300 bps ~ 115200 bps
Input Transmitter: DB9 Female
Output Receiver: DB9 Male
Link interface: RJ45 Female
Transmission Range (Max.): 2 KM
Power Consumption: 200mA ~ 250mA
Power Supply: DC 5V 1 amp
Temperature: Operation: 0°C to 55°C, Storage: -20°C to 85°C,
Humidity: up to 95%
Dimensions: 2.65" x 2.93" x 1.06", 67 x 74.5 x 27 ~ W x H
x D mm
Weight: .5 lbs.
Warranty: 2 Years
